

Meet Maria.

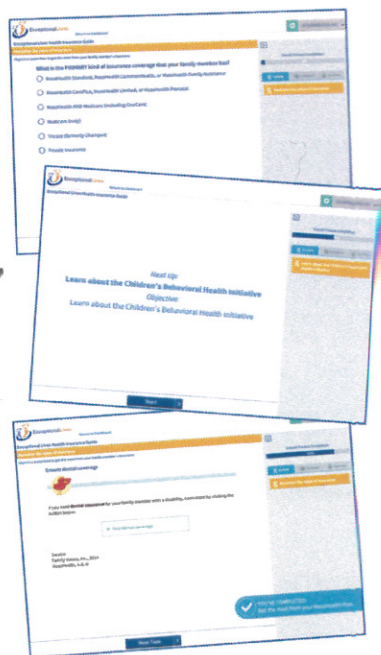

Maria has a 13-year-old with special needs. Worrying about his future keeps her up at night. Information online is overwhelming, unreliable and generic. Expert help is too expensive.

Maria

When she visits the Exceptional Lives website, she finds free, easy-to-read online Guides for families of children and adults with disabilities in Massachusetts.

Each Guide takes as little as 15 minutes to walk through!

As Maria moves through a Guide, she gets clear next steps that empower her to take action and achieve goals.

Maria starts by answering simple questions that lead her down an individualized path.

such as her son's age. The software behind the Guides uses these answers to customize the information she sees.

Our Guides turn the complex processes that she needs to complete into bite-sized chunks she can manage one step at a time.

The focus of each Guide is only the relevant, actionable information she needs to access services and supports for her family.

By using Exceptional Lives Guides, Maria feels more knowledgeable and confident about how to access the necessary supports and services that will help her son thrive.

Ready to get started?

Click a button below to check out an Exceptional Lives Guide! ~~If you like what you see, you can create your own account ~~anytime~~ (takes 15 seconds), and then explore more all. It's that simple.~~

- Create an effective IEP
- Optimize health insurance
- Apply for SSI
- Navigate guardianship

[AARON - New screenshots were included in what I sent today. Do you think they look good, or are there too many birds?]

easy.
